CLOVER

clover

Everything Flexes

Automatic Comfort

Every part of Clover was designed to flex and adjust to your body. The lumbar's top flexing edge lets you comfortably rest your arm on top of the chair. The flexing backrest encourages you to move your shift, allowing you to accommodate to your body weight as well as height. And the flexing back continues to support any posture your body needs at any given moment.

SOPHISTICATED SIMPLICITY

Clover is a hardworking task chair designed to handle long hours of serious sitting. With fully upholstered back and PU-padded armrest, Clover brings an element of sophistication to any workspace.

Comfortable Collaboration

The Clover chair offers one manual adjustment, which is the seat height. The rest is taken care of for you. The self-weight adjustment mechanism naturally puts you in best position of comfort right from the start. When you first sit on Clover, it senses your center of gravity and adjusts to the position that will put the least amount of stress in your body, while still keeping you properly aligned and supported. When you move or shift posture, Clover does the same, allowing you to enjoy the chair in comfort.

Flexible Backrest Edge

Helps to support multiple postures for freedom of movement.

Specifications

1 Backrest

PU moulded back is attached to the bottom polypropylene cross.

2 Under seat

Bottom polypropylene cross which made of recycled material is secured to the seat.

3 Armrest

Stainless polypropylene fixed cross on 11 inch thickness.

4 Backrest

High quality moulded polypropylene backrest cross in blue finishing that come with polyurethane moulded foam for the backrest comfort.

5 3 Pronged Base

Nylon base that comes with matching Green nylon casters.

Optional

Adjustable Headrest

The two-plated headrest allows precise adjustments of the angle and the height, giving comfort and support to neck and head along seating posture. (Pg. 1, 2)

40 Adjustable Armrest with Polyurethane drop pad

Tension can be adjusted, move forward and back, pivot, and adjust up and down which provides ideal position that comfortably supports the whole, forearm, shoulder and neck. (Pg. 1, 6)

Fixed Armrest

Module 8 polypropylene armrest in white finish. (Pg. 1)

3 Pronged Base

3 pronged base is either nylon or die-cast polished aluminum. Both generated by highly sophisticated technique to provide strong stability. (Pg. 6, 7)

Nylon Casters

Silent or Motion nylon dual wheel casters are designed for smooth gliding and also reduce floor scratches. (Pg. 8)

Adjustable Seat Height / Slider Mechanism

Using a spring lever under the seat, user can easily adjust the depth of the seating to accommodate his sitting preference and comfort. (Pg. 9, 10)

Self Weight Tilting Mechanism

Self-weight adjustment specialized mechanism with 3 tension level adjustable knobs and multi-locking system designed to adjust your body weight automatically. (Pg. 10, 11, 12)

Tilting Mechanism

Metal 4 mechanism mechanisms with seat slide and 3 locking system that come with weight adjustable tension knob. (Pg. 14, 15, 16)

Height Adjustable Pneumatic Cylinder

Optional heavy duty pneumatic cylinder designed with safety and durability features, allows for height adjustment of the chair to suit each user's physique. (Pg. 17)

OPTIONAL SPECIFICATION

4D Adjustable Armrest with Polyurethane Airpact
Telescope in, and out, move forward and back, pivot, and adjust up and down which provides natural position that comfortably supports the wrist, forearm, shoulder and neck. (Pic 1, 2)

Fixed Armrest
Monobloc nylon urethane stock finish. (Pic 3)

Elongated Back
3 pronged feet in either polypropylene or (be cast) polished aluminium finish. Operates by highly sophisticated air-bore to provide strong stability. (Pic 4, 5)

Nylon Casters
Stem nylon dual wheel casters are designed for smooth gliding and also reduce floor scratches. (Pic 6)

Capping Finishing
Strip capping with chrome T shape finish located at the bottom of the chair backrest enhances quality upholstery while adding elegant design to the contours of the backrest. (Pic 7, 8)

Tilting Mechanism
Metal synchronized mechanism with locking system that comes with weight adjustable tension knob. (Pic 9, 10)

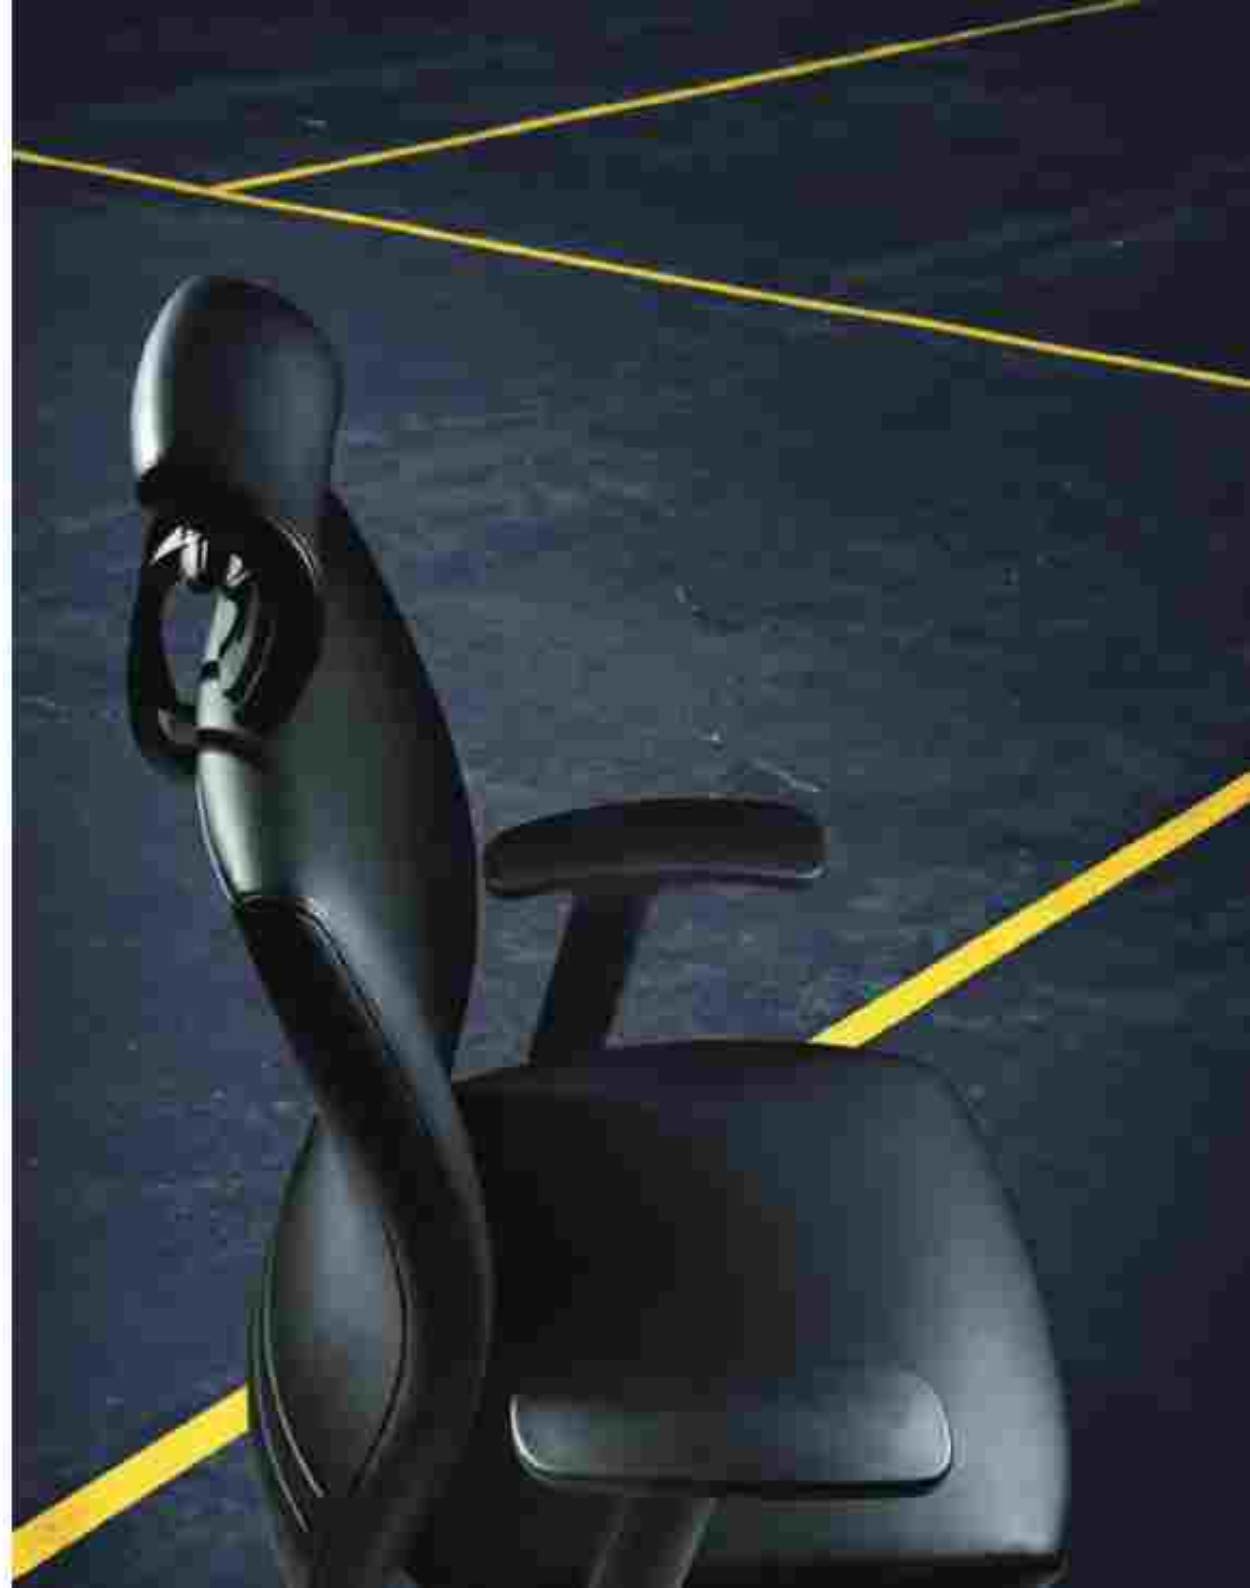

Height Adjustable Pneumatic Cylinder
Inspired heavy duty pneumatic cylinder designed with safety and durability features allows for height adjustment of the chair to suit each users physique. (Pic 11)

Polyurethane Moulded Foam
High density polyurethane moulded foam core with the instant lift feature, gives the seat flexibility to conform user sitting posture, provides great support and best comfort even for long sitting hours. The black finish seat cover fabric is designed for greater protection to the foam, quality upholstery and user safety. (Pic 12)

ERGO

INSPIRE[®]
OFFICE SYSTEM

Subtle Sophistication

Appearance does matter and reflects the class. That's why each part of ERGO has been redesigned and refined down to a clean and minimalist look so that the chair sticks out a mile, allowing it to emphasize on its strengths and never misrepresents it, while allowing integration with the surrounding to take place with ease.

Ergonomic Redefined

ERGO is that one chair that keeps getting better with time. Years of real-time usage and testing of ERGO has resulted in a chair that surpasses all ergonomic standards and parameters.

Administrative Information

The height-adjustable backrest allows precise adjustments of the height, giving comfort and support to neck and head during sitting posture. (1)

40 Adaptive Response with Polyethylene Amine

Tenocytes in and out, move forward and back, pivot, and adjust up and down, which provides natural cushion that comfortably supports the wrist, forearm, shoulder and neck. (Fig. 2, 3, 4)

Region 4/2 A.914 Middle Somerset

System adjustable armrest with polyurethane armrest to enhance comfort with head comfort (Fig. 5, 6, 7).

4. **Strategic Base**

3. **Integrated base in either nylon or die-cast polished aluminum**
which generates by highly sophisticated ambience to provide
strongly suitable World.

System-Casting

often a firm sign that a child is being hit much, giving us the same firm evidence we do.

Adjustable Seat Depth / Slider Mechanism

Using a simple lever under the seat, user can easily adjust the depth of the seating to accommodate his sitting preference and comfort (fig 11, 12).

Self-weight fitting mechanism

Self-weight adjustment synchronized mechanism with 3 layers steel adjustable knobs and multi locking system designed to adapt your back weight automatically. (94-12, 13, 14)

Erling Madsen

Metals (screwdrivers, wrenches, etc.) and tools (saws, etc.) require that some additional affordable tension be used (Fig. 14, C3, D4).

Eight Amiable Persons Circle

Impressed heavy-duty pneumatic cylinder designed with safety and durability features. Allows for height adjustment of the chair to suit each user's objectives. 100% PVC.

1 Headrest 2 Backrest 3 Seat 4 Armrest 5 Base 6 Casters

The Headrest is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the neck and head.

The Backrest is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the back and shoulders.

The Seat is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the hips and thighs.

The Armrest is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the arms and shoulders.

The Base is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the feet and ankles.

The Casters are made of high quality foam and are covered with a soft, breathable mesh. They are adjustable in height and angle to provide optimal support for the feet and ankles.

Maxim Series chairs are designed with a focus on ergonomics and comfort. The adjustable features allow users to customize their seating experience to match their body and work environment.

1 Adjustable Headrest 2 Adjustable Backrest 3 Adjustable Seat Depth & Slope 4 3D Adjustable Armrest 5 Ergonomic Seat Casters

Adjustable Headrest

The Headrest is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the neck and head.

Adjustable Backrest with Polyurethane Foam

The Backrest is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the back and shoulders.

Fixed Armrest

The Armrest is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the arms and shoulders.

3-Pronged Base

The Base is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the feet and ankles.

4-Pronged Base

The Base is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the feet and ankles.

Wheels/Casters in 360

The Casters are made of high quality foam and are covered with a soft, breathable mesh. They are adjustable in height and angle to provide optimal support for the feet and ankles.

Adjustable Seat Cushion

The Seat is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the hips and thighs.

Adjustable Seat Depth & Slope

The Seat is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the hips and thighs.

Backrest Cushion Support

The Backrest is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the back and shoulders.

Rotary Six-Function Mechanism

The Mechanism is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the back and shoulders.

Rotary Six-Function Tilt 10° Mechanism

The Mechanism is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the back and shoulders.

Ball Motion Mechanism

The Mechanism is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the back and shoulders.

Height Adjustable Pneumatic Cylinder

The Cylinder is made of high quality foam and is covered with a soft, breathable mesh. It is adjustable in height and angle to provide optimal support for the back and shoulders.

Specifications

1 Headrest

PU moulded foam is attached to the bottom polypropylene cover.

2 Molded foam

High-density polyurethane moulded foam, comes with five extended features, gives the seat flexibility to conform your seating posture.

3 Under seat

Bottom polypropylene cover which made of recycled material is secured to the seat.

4 Armrest

Nylon adjustable armrest with polyurethane wrapped to enhance support with better comfort.

5 Backrest

Nylon backrest frame and adjustable lumbar support is a important backrest.

6 5 Pronged base

Nylon base that comes with replacing 30mm nylon casters.

Optional

Headrest

The contoured PU headrest provides comfort support to back and head (Pic 1).

Nylon Adjustable Armrest

Nylon adjustable armrest with nylon wrapped to enhance support with best comfort (Pic 2, 3).

Two Armrest

Moulded nylon armrest in backrest (Pic 4).

5 Pronged Base

5 pronged base is either nylon or die-cast polished aluminium (nick), operates by highly sophisticated technique to provide strong stability (Pic 5, 6).

Nylon Casters

Strong 30mm nylon dust wheel casters are designed for smooth gliding and the rubberised assembly that reduces floor scratches (Pic 7, 8).

Lumbar Support

Nylon backrest frame and adjustable lumbar support in backrest (Pic 9, 10).

Adjustable Seat Depth / Under Mechanism

Using a simple lever under the seat, user can easily adjust the depth of the seating to accommodate his sitting preference and comfort (Pic 11).

Rotary Tilt / Synchronised Mechanism

Multi-tapping mechanism that come with seat height adjustment and reclining tension control function (Pic 11, 12).

Height Adjustable Pneumatic Cylinder

Imported heavy duty pneumatic cylinder designed with safety and durability features, allows for height adjustment of the chair to suit each user's physique (Pic 13).

PEGASO

pegaso

There's a lot of work to be done, so when it comes to comfort, you just gotta have it.

UNCHALLENGED COMFORT

Sensitively crafted, the Pegaso collection is for those who truly understand what true luxury means. With this in mind, the complete seating solution will gratify any working companion with its quality and supreme portability.

1. Inner Seat

The inner seat is attached to the bottom. It's a high-quality material without the use of metal parts, making it very durable.

2. Armrest

Adjustable armrest with high support in any position, ensuring maximum comfort.

3. Pongest Back

High back rest with 40cm of adjustment, ensuring maximum comfort.

Using a simple lever under the seat, user can easily adjust the depth of the seating to accommodate his sitting preference and comfort. (Pic: 6, 7)

Self-Weight Tilting Mechanism

Self-weight adjustment synchronized mechanism with 3 tension level adjustable knob and multi-locking system designed to adapt your body weight automatically. (Pic: 8, 9)

Capping Finishing

Slip-capping with chrome finish located at the bottom of the chair backrest enhances quality upholstery while adding elegant design to the contour of the backrest. (Pic: 10)

Height-Adjustable Pneumatic Cylinder

Imported heavy duty pneumatic cylinder designed with safety and durability features, allows for height adjustment of the chair to suit each user's physique. (Pic: 11)

Polyurethane Moulded Foam

High density polyurethane moulded foam coming with fire retardant features, gives the seat flexibility to conform user sitting posture, provides great support and best comfort even for long sitting hours. The black fabric seat cover below is designed for greater protection to the foam quality upholstery and durability. (Pic: 12)

PHANTOM

phantom

phantom

A Perfect Fit For Every Space

With excellent back support, Phantom is used comfort further with its upholstered seat, back pad and arm rests. In lounges and public spaces, the Phantom Dayse versions can be configured to form a specific seating landscape. A variety of upholstery colors along with matching Phantom coffee tables make room for total design versatility.

Specifications

1. Molded Foam

High density polyurethane molded foam with five-pointed feature gives the seat flexibility to adjust to the user's sitting posture.

2. Upholstery

Bottom polypropylene cover shell of recycled material is bonded to the seat.

3. 5-Pointed Base

Oxylon base that comes with matching 50mm oxylon casters.

Fine stitching, fine stitching and quality workmanship result in superior craftsmanship.

Optional

Two-Armrest

Two-armrests provide solid support. (Pg. 11, 12, 13)

5-Pointed Base

A 5-pointed base is either die-cast polished aluminum or oxylon base generates a highly sophisticated appearance while providing strong stability. (Pg. 4, 5)

4-Pointed Base

A 4-pointed base is die-cast polished aluminum with, provides a highly sophisticated appearance while providing strong stability. (Pg. 6, 7, 8)

Oxylon Casters or Stud

50mm or 60mm oxylon dual-wheel casters and studs are designed for smooth gliding and ease of movement from one location. (Pg. 9, 10, 11, 12, 13)

Footrest Strip

The polished aluminum base that comes with a chrome footrest ring provides a better and more comfortable sitting position. (Pg. 14)

Heavy-Duty Synchronous Mechanism

Multi-locking mechanism comes with seat height adjustment and reclining tension control function. (Pg. 15, 16)

Roll Motion Mechanism

With the roll motion mechanism, users are able to roll dynamically. The chair moves as if you are sitting on a ball. Through stabilizing the user's body motion, the body is kept in balance. (Pg. 17)

Up/Up & Down Mechanism

Metal mechanism with lift-up & down functions come with pneumatic cylinder. (Pg. 18)

Height Adjustable Pneumatic Cylinder

Imported heavy-duty pneumatic cylinder is designed with safety and durability features, allowing for height adjustment of the chair to suit each user's physique. (Pg. 19, 20)

PICO

pico

pico

The attractive PICO chair, which has a minimum of 2 awards of the world, combines great stability with excellent comfort. The backrest leans partly in response to the chair's movements. Available in a selection of 7 different backrest colors, this robust chair is suited for a wide range of applications that all require working enjoyment.

Specifications

- a) Lumbar Support**
P12 molded foam is attached to the bottom polypropylene cover.
- b) Molded Foam**
High density polyurethane molded foam comes with the retainer features, gives the seat flexibility in conforming to sitting posture.
- c) Stretcher Base**
Wetted polypropylene cover which made of recycled material is secured to the seat.
- d) Armrest**
Hydra adjustable armrest with polyurethane ampul to enhance support with best comfort.
- e) Backrest**
Hydrobacked frame and adjustable lumbar support in transparent black fabric.
- f) 5-Pointed Base**
Hydra base that comes with switching 50mm hydra casters.

Optional

42 Adjustable Armrest with Polyurethane Ampul
Telescope in and out, up and down, and adjust up and down, which provides natural position that comfortably supports the wrists, forearms, shoulders and neck. (Pg. 4, 5)

Fixed Armrest
Molded hydra armrest in black fabric. (Pg. 5)

5-Pointed Base
A 5-pointed base in polypropylene resin, generated by highly hydrocarboned, designed to provide strong stability. (Pg. 4)

Footrest Ring
The polished aluminum base that comes with chromed lumbar ring provides a better and comfortable sitting posture. (Pg. 5)

4-Pointed Base
The cast polished aluminum base that comes with either adjustable stud or casters not only generates the maximum stability but also provides strong stability. (Pg. 4, 5)

Hydra Casters
50mm or 40mm hydra dual-wheel casters are designed for smooth gliding and low resistant floor scratches. (Pg. 5, 10)

Lumbar Support
Hydra backrest frame and adjustable lumbar support in transparent black fabric. (Pg. 11)

Tilting Mechanism
Metal synchronized mechanism with a locking system that comes with weight adjustable tension knob. (Pg. 12, 13)

Height Adjustable Pneumatic Cylinder
Imported heavy duty pneumatic cylinder designed with safety and durability features, allows for height adjustment of the chair to suit each user's physique. (Pg. 14, 15)

Specifications

- 1. Backrest:** PU moulded foam is attached to the factory polypropylene cover without the usage of metal plates/bolts with nuts.
- 2. Armrest:** Bottom polypropylene cover which made of recycled material is unconditionally attached to the seat that saves the exchange and replacement of the seat upholstery.
- 3. Seat:** Nylon adjustable armrest with polyurethane armrest support with hand support.
- 4. Base:** Nylon backrest frame with hand support in black finish.
- 5. Casters:** Polypropylene base that comes with matching 50mm nylon casters.

Optional

- 1. Adjustable Headrest
- 2. 4D Adjustable Armrest
- 3. Seat Slider
- 4. Mechanism

- Adjustable Headrest:** The angle from height adjustable headrest provides comfort and support to neck and head at any sitting position. (Pic 1)
- Headrest:** The contoured (A) headrest provides comfort support to neck and head. (Pic 2)
- 4D Adjustable Armrest with Polyurethane Armrest:** Take up in and out, move forward and back, pivot, and adjust up and down which provides natural posture that comfortably supports the wrist, forearm, shoulder and neck. (Pic 3, 4, 5, 6)
- 5-Pronged Base:** 5-Pronged base in either nylon or die-cast polished aluminum feet generates a highly sophisticated entrance while providing strong stability. (Pic 7, 8)
- Nylon Casters:** 50mm nylon polyurethane casters are designed for smooth gliding and do not scratch floor surfaces. (Pic 9)

- Adjustable Seat Depth / Slide Mechanism:** Using a single lever under the seat, user can easily adjust the depth of the seating to accommodate his sitting preference and comfort. (Pic 10)
- Pneumatically Synchronized Mechanism:** Multi-faceted mechanism system with seat height adjustment and reversing tension control function. (Pic 11, 12)
- Lumbar Support:** Nylon backrest frame and lumbar support in two-part black finish. (Pic 13)
- Height Adjustable Pneumatic Cylinder:** Imported heavy duty pneumatic cylinder is designed with safety and durability features, allowing for height adjustment of the chairs suit each user's physique. (Pic 14)

SMARTY

smarty

Smarty is a family of beautiful conference, task chairs and multipurpose seating. Its distinctive rim curved shape offers a feel comfortable all and embraces the body through out the range. Smarty is available with or without arms and with different bases to suit your requirement. It allows user total freedom to move dynamically just like sitting on a ball.

Inner Seat

The whole chair is comprised of PU moulded form to provide a proper contour for ergonomic shape and elegant design. This guarantees that the chair is durable and comfortable.

OPTIONAL SPECIFICATION

**Aluminum Armrest**

Die-cast polished finish front aluminum armrest with upholstery wrap. It is designed for its visual aesthetics, durability, and reliability. The top upholstery wrap provides soft texture and stationary feel for a more comfortable resting of elbows. (Pic 1)

Fixed Armrest

Upholstered metal armrest either in chrome or epoxy finish. (Pic 2, 3)

2 Pronged Base

3 pronged base in either nylon or die-cast polished aluminum finish, generated by highly sophisticated technology to provide strong stability. (Pic 4, 5)

4 Pronged Base

4 pronged base in die-cast polished aluminum finish with fixed shaft, generated by highly sophisticated technology to provide strong stability. (Pic 6, 8)

Nylon Casters

60mm nylon dual wheel casters are designed for smooth gliding and also reduce floor scratches. (Pic 7)

Rotary Pant-Synchronized Mechanism

Multi-locking mechanism that comes with seat height adjustment and swiveling function (rotated function). (Pic 8, 10)

Tilting Mechanism

Metal synchronized mechanism with 1 locking system that comes with weight adjustable tension knob. (Pic 11, 12)

Roll Motion Mechanism

With the roll motion mechanism, you will be able to sit dynamically. The chair moves as if you were sitting on a ball. Through body motion, user will keep his body in balance. (Pic 13)

Vertical Mechanism

Non-tilting height adjustment mechanism that will allow users to sit comfortably and safely. (Pic 14)

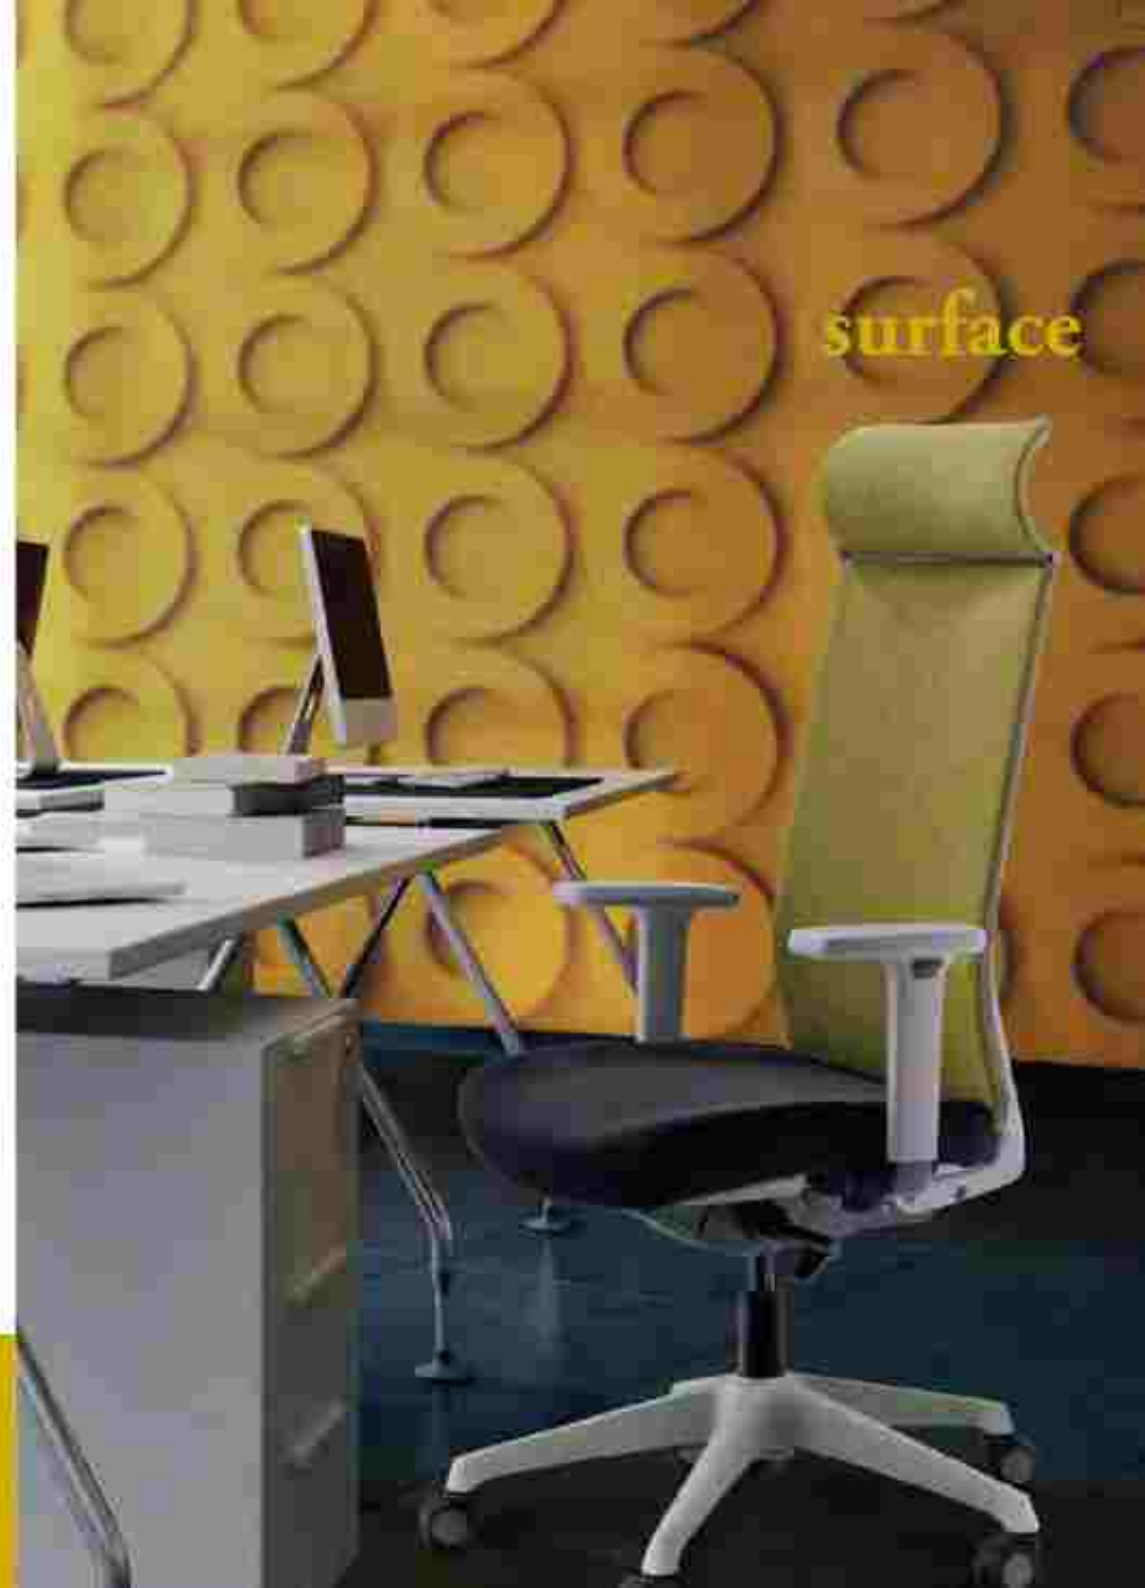

Height Adjustable Pneumatic Cylinder

Imported heavy duty pneumatic cylinder designed with safety and durability features, allows for height adjustment of the chair to suit each user's physique. (Pic 15)

Polyurethane Matted Foam

High density polyurethane moulded from foam with the excellent feature, gives the user flexibility to conform user sitting posture, provides great support and best comfort even for long sitting hours. (Pic 16)

SURFACE

Versatility

Simple in all the right ways, comfortable in all the right places – that's Surface. It's able to specify size to fit you and pair perfectly with all of your ergonomic collections.

Surface redefines office seating as it conveys a sense of ease, value and comfort. The chair's design and handling are equally impressive. You can confidently tick all the boxes in terms of function and design, as Surface is simply a seamless solution for all workspace.

Specifications

1 Armrest 2 Meshed Foam 3 Under Seat 4 Adjust 5 Backrest 6 5 Pronged Base

1 Armrest
The meshed foam is attached to the bottom polyethylene cover without the usage of metal plate, ensuring a smooth ride.

2 Meshed Foam
High density polyethylene meshed foam, come with the maximum durability, giving the seat flexibility for maximum seating posture.

3 Under Seat
Breathable and porous mesh cover with mesh material is automatically welded in the seat, that gives the maximum and improvement of the seat upholstery.

4 Adjust
Adjustable polyurethane padded armrest that can be in either light grey or black matching.

5 Backrest
Nylon backrest frame for the optimum fit, either in light grey or black matching.

6 5 Pronged Base
The 5 pronged base (in either light grey or black) ensuring that comes with matching 30mm high grey or black nylon casters.

Optional

Headrest

The optional 3D headrest provide comfort support to neck and head (Pic. 1).

3D Adjustable Armrest with Polyurethane Armrest

Armrest in up, down, rotate forward and back, pivot, and adjust up and down which provides comfort posture that comfortable supports the elbow, forearm, shoulder and wrist. (Pic. 2, 3, 4)

Headrest

Adjustable headrest in black finish. (Pic. 5)

5 Pronged Base

5 pronged nylon base in either light grey or black finish. (Pic. 6, 7)

Multiple Column Casters

Various high strength dual-wheel casters are designed for smooth gliding on all office floor materials. (Pic. 8)

Lumbar Support

Nylon backrest frame with adjustable lumbar support in transparent black finish. (Pic. 9)

Auto Self Weight Tilting Mechanism

Self-weight adjustment mechanism (tilt function) with 3 locking modes that support 145, 160 or 180° tilt weight without the weight sensor device. (Pic. 10, 11)

Height Adjustable Pneumatic Cylinder

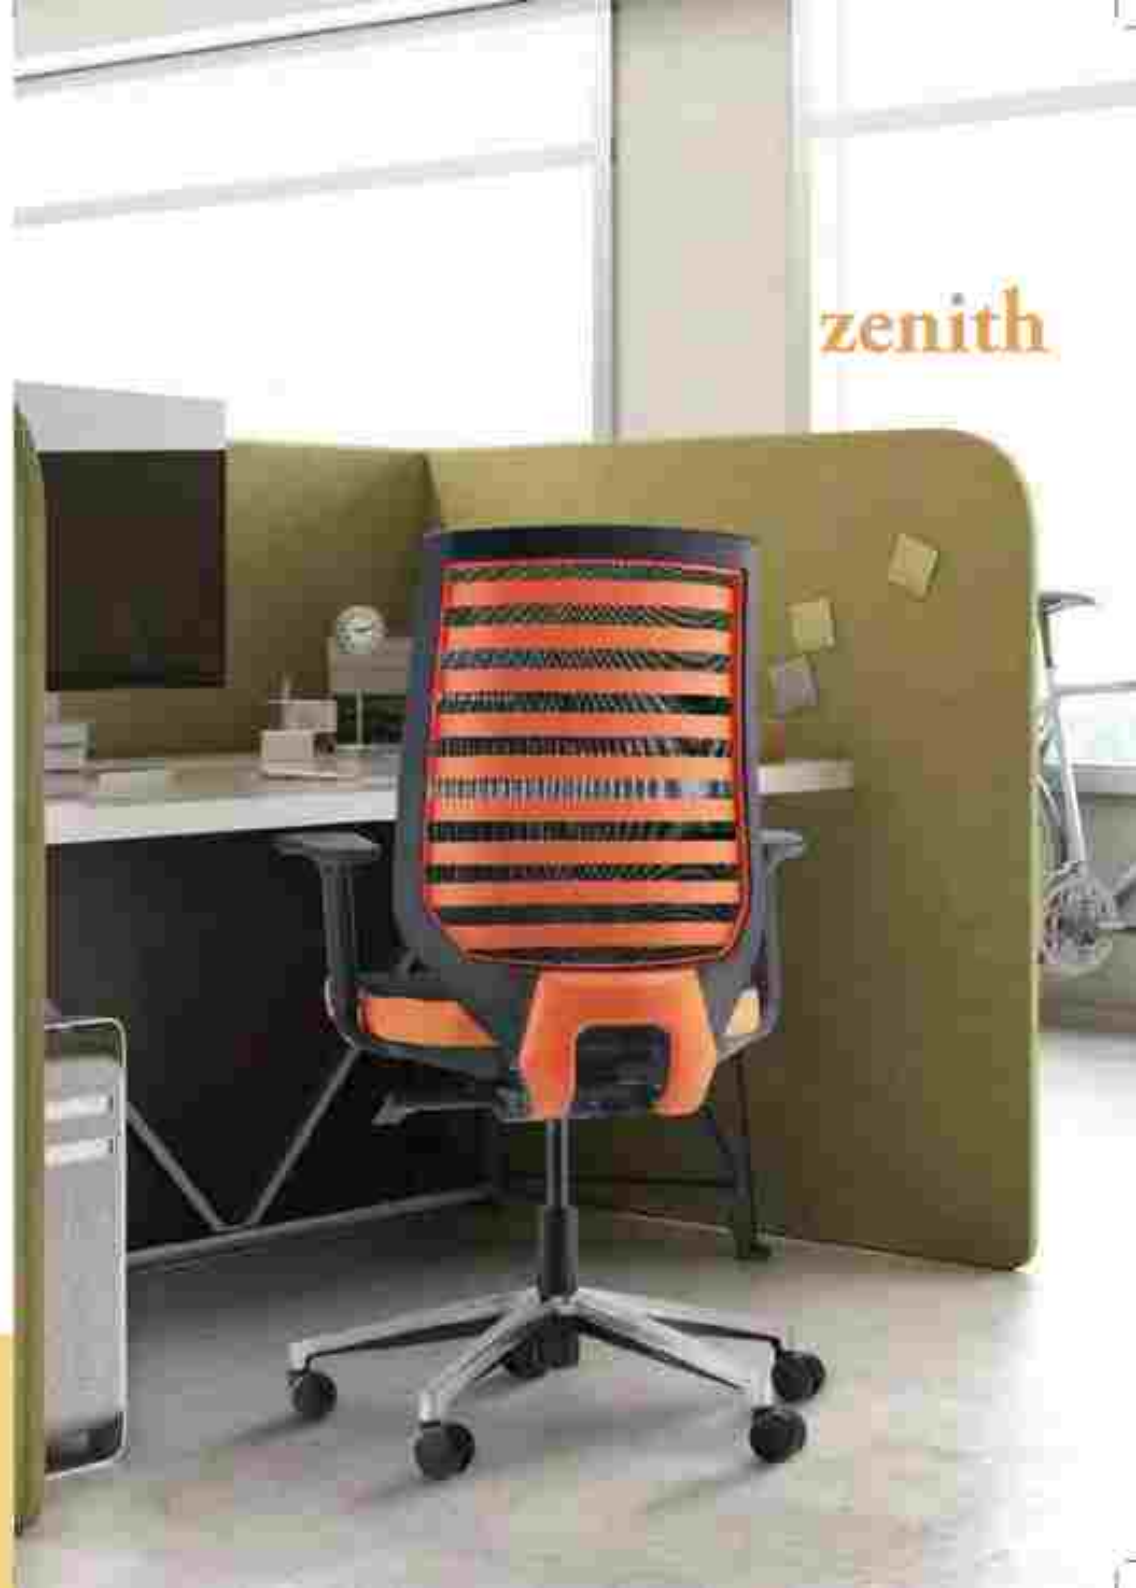

Imported heavy duty pneumatic cylinder designed with safety and durability features, allows for height adjustment of the chair from 450 to 550 mm. (Pic. 12)
